## WOMEN INVADE TRADITIONAL MALE DOMAINS

**DOROTHY BLACKMORE** of B.C.'s Port Alberni is one of four or five women in all Canada who hold the rank of captain in the merchant marine. Here she is at the wheel of her fast motor

launch with which she takes pilots out to sea to meet incoming ocean ships, off Beale Point, where lies the famous graveyard of the Pacific. Here, before radio, hundreds of ships were wrecked.

**B**EING as nimble with a tugboat as with a launch or an ocean freighter, Dorothy, a veteran pilot, though she is only 30, is entitled to be called Port Alberni's Tugboat Annie. She has hopes of owning a string of tugs like this famous character and her father before her, who is now retired. She is well known all along the tempestuous west coast of Vancouver Island. She has put into most of its ports during years of ferry service up and down this dangerous and rocky shore.

**THIS PICTURE** of a bulldog with a half-chewed cigar in the style of Churchill she calls her pin-up boy, just to be in fashion, since her male confreres all have pin-up girls.

**HERE ARE SKIPPY** and skipper. The black cocker spaniel is the lady captain's inseparable companion. A life preserver on her sea-going launch the Commodore makes a very appropriate frame for them.

**A 17-YEAR-OLD** girl, Gwendolyn McKee, is doing a man-sized job as a fire ranger in the black-fly infested woods, 75 miles north of Sudbury. Above, in her shack at the foot of an 85-foot tower, she is shown operating a two-way radio transmitter and receiver.

**AT THE OTHER** end of the line is her immediate boss, Deputy Fire Chief James Espaniel, who is receiving her account of a small blaze in her neighborhood. Espaniel was a hunting companion and friend of Grey Owl, internationally famous beaver man.

**THREE TIMES** a day Gwendolyn has to go up and down through these hoops, climbing and descending the 65 steps in her watch tower. It is her second season on this job which she took over from her father. Her two brothers are also rangers.

**NORTH BAY** high school girls had a course in forest fire prevention given to them by an expert, Tom Mackey, district fire ranger. Here are three of them handling a hose with considerable gusto and proving that Tom was right when he said the girls take to it like wild fire.

## DRUMS OF WAR MAKE LIFE EASIER FOR G.I.

**SPLIT IN TWO**, empty oil drums are used for barbecue purposes at a U.S. fleet recreation centre on a Pacific island. Lacking a whole steer, the sailors toast hot dogs.

**KISSES ARE PART** of the spoils of war which belong to the victors in the Philippines. Miss Conchita Carmelo, daughter of the Mexican consul, is on the receiving end of the osculatory ceremonies. Givers are two aviators.

**THE VERSATILE** oil drums make excellent shower baths as well as barbecue grids. A shower is a treat in the torrid mid-Pacific even if water shortage permits of only a trickle from the taps of the tanks.

**ONCE MORE** the discarded drums solve a big Pacific problem, that of washing clothes. Here they make laundry tubs in which the soiled linen is whirled about by a windmill.

*All these —*

**and good beef stock, too**

You'd get a thrill just out of seeing all the many different vegetables—each so perfect, every one so enticing—which Campbell's use for their vegetable soup. Altogether there are fifteen kinds of them, each one contributing its own goodness—succulent sweet corn, fresh green peas, tender lima beans and a dozen more! Then the vegetables are combined with a rich beef stock, and

the result is a soup tempting in taste and abundant in nourishment.

That, of course, is the reason why so many mothers say that Campbell's Vegetable Soup is almost a meal in itself. In fact, it's the ideal summertime "one hot dish". You can serve it with only a few minutes of kitchen time—yet with every assurance your family are eating mighty well!

## FIREMEN'S BATTLE TRAINING

**TORONTO** has a school for the new members of the fire-fighting force, many of whom are repatriated servicemen. The special instructor is Capt. Bill Corbett, a veteran fireman with long experi-

ence. Here the teacher, clothed from head to foot in asbestos, helps a pupil wearing an oxygen mask through a window in the training tower after bombs have been exploded to fill it with smoke.

**ONE OF THE PUPILS** poses as a victim rendered unconscious by smoke and a veteran smoke eater, Cecil McCarrel, carries him down a ladder to illustrate the technique required on such occasions. In actual fires there is always a chance of some pretty girl.

**HERE'S THE MOST** dramatic incident in a fireman's life. It is the death-defying act of leaping into an outstretched life net. Even from a first storey window it takes nerve and Instructor Captain Corbett shows the rookies how to perform the trick.

## VICTORY MARCH FOR "IKE"

GENERAL DWIGHT D. Eisenhower, more commonly known as "Ike," supreme commander of the forces of the western Allies in Europe, has a hearty laugh with his wife as they go to White House to see the President.

NEW YORK, famous for its greetings, broke all records in its tumultuous welcome to Eisenhower on the latter's triumphant return from Berlin. He stands up to acknowledge applause as ticker tape fills the air.

The Star Weekly, Toronto, July 14, 1945

## THE FIRST STEP IS YOUR RESPONSIBILITY

When little feet first bear a child's weight the bones are soft, the arches unsteady. Incorrect shoes can cause many foot troubles that, through the nervous system, produce disturbances in other areas of higher sensitivity and less resistance.

Savage Shoes are built over scientifically designed lasts - constructed to give maximum support to tiny feet. They are not corrective but CORRECT.

We want to emphasize too, the importance of fitting children's shoes properly. The Savage Shoe dealer in your community recognizes *his* responsibility in this regard. That's another good reason for seeing him when you buy children's footwear.

If you'd seen the room when we first saw it, we think you would have been pretty dismayed, too! . . . The proportions were good . . . the colors were nice . . . and the furniture was in pretty fair shape . . . but somehow it just didn't look right!

"First thing we do," I said to Jim, "is to get new drapes for the window. Then we'll put up the prints your Aunt Sue gave us and decorate the drawers of the end tables." In no time at all the room started to take shape . . . but there was still something important missing!

*New drapes... three new prints  
... a pint of paint...  
... and a stunning  
New Rug*

"It's the floor," said Jim. "The room will never look right with a floor like that. But it'd take a barrel of money to fix it up." "Don't be so sure," I said. "I've got just the idea for the perfect floor—and it's inexpensive, too! . . . a Gold Seal Congoleum Rug." We got one the very next day, in lovely rich colors that blend beautifully with our scheme. You should see the difference it makes! It will last years, too. For the Congoleum dealer told us that the extra deep and durable wearing layer of heat-toughened paint and baked enamel is actually equal in thickness to 8 coats of best floor paint, applied by hand! It's smooth, easy to clean, and comfortable underfoot. Who could ask for more?

## INSECT MODELS IN VICTORIA

**LARGE SCALE** models of insects are a feature of the provincial museum in Victoria, B.C. Jan. Olsen shows Gail Keyworth a black widow spider 12 times life size, linear measurement, and 1,200, by bulk and weight.

**THE MUSEUM'S STAFF** artist, Mrs. Lilian Sweeney, who has worked for two years on these large models, applies a final coat of shellac to a European earwig enlargement as Dr. G. Clifford Carl, director, looks on.

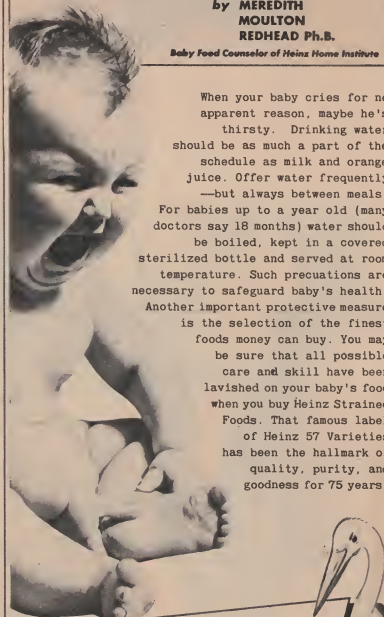

**HELENE HUNKIN** finds the common house fly alarming when it is 16,000 times magnified in bulk, weight.

## Your baby needs a drink of water - often!

by **MEREDITH  
MOULTON  
REDHEAD Ph.B.**

*Baby Food Counselor of Heinz Home Institute*

When your baby cries for no apparent reason, maybe he's thirsty. Drinking water should be as much a part of the schedule as milk and orange juice. Offer water frequently—but always between meals.

For babies up to a year old (many doctors say 18 months) water should be boiled, kept in a covered sterilized bottle and served at room temperature. Such precautions are necessary to safeguard baby's health.

Another important protective measure is the selection of the finest foods money can buy. You may be sure that all possible care and skill have been lavished on your baby's food when you buy Heinz Strained Foods. That famous label of Heinz 57 Varieties has been the hallmark of quality, purity, and goodness for 75 years.

## THE RIGHT WAY TO DRAW A BOW

**ALEXIS SMITH** is declared by experts to demonstrate perfect archery form. This is the attitude of the "draw." It is permissible to have the right hand anywhere between the cheek bone and the point of the chin. At the extreme point of the draw, upper right, the thumb on the left hand is relaxed and the arrow is drawn parallel to the bow's leading edge.

**THIS SHOWS** the correct finger position for a proper "draw" or loose as the English say. It is with archery as it is with the drive in golf. The right technique is all important and is essential to get distance.

## BRIDAL KISS

### FOR ANOTHER WOODBURY DEB

**THE BRIDE:** Joanne Elizabeth McKay of Toronto. **THE GROOM:** F/L Raoul de Fontenay Jenner. Raoul wears the George Medal for Gallantry—is a veteran of 30 missions over Germany. But he was an easy target for the velvet-soft beauty of Joanne's lovely-to-touch Woodbury Soap complexion!

"Naturally I love him for the flattering things he says about my skin after my Woodbury Facial Cocktail," says Joanne. "That's heaps of Woodbury lather—then clear warm water and cold." Try Woodbury—the facial soap made in cake form only—for the skin alone. For beauty—for romance!

## HILLBILLY ONE MAN BAND

**HERE'S HERMAN** the Hermit producing mountain music on a scale that is really wholesale. In this set-up there are 27 different instruments including tuned coffee pots, sheep bells, horses' hooves as well as a bass fiddle and big harp. And yet Herman has only two hands and two feet.

**THE HILLBILLY** virtuoso can sing as well as play any instrument you care to mention. Sometimes he is content to play just one instrument at once, in this case a miniature grand piano. But in case he gets bored with the monotony he always keeps a few other contraptions handy.

..but **HOLD-BOB** pins kept her hair lovely of course!

• Why is a bobby pin? To hold your hair — smoothly, firmly, invisibly. And that's the way **HOLD-BOB** bobby pins are made: for longer-lasting, springy power. Remember, only **HOLD-BOBS** have those small, round, invisible heads. Add satiny finish and the rounded-for-safety ends...and you have the advantages that make **HOLD-BOBS** America's favorites! ## AMONGST THE NAVAJO TRIBE OF NEW MEXICO

**THIS REMARKABLE STUDY** of extreme old age was taken in a Navajo village in New Mexico. The Navajos are famous for their blankets, silver work and nine-day religious ceremonies. They are unlike Pueblo Indians, and are in race and language connected with Canada's Athabaskan tribe.

**BIG, OPEN** fireplaces like this are common amongst the New Mexico Indians, even though wood is none too plentiful. As elsewhere amongst Indians moccasins are in use. Bead necklaces are still popular with Indian women.

**WHETHER** they are Zunis or Hopis, Apaches or Navajos, there are beautiful Indian girls as well as blankets along the Rio Grande.

Fresh Sunkist Lemonade has no equal as a thirst quencher on a hot day! Cool, tangy, reviving as a sea breeze. It's the cold drink too, that builds health... supplies daily needed Vitamin C. And remember... the finest, juiciest lemons are Sunkist Lemons!

*Refreshing*

**Sunkist California Lemons**

**THIS APACHE'S** remote ancestors may have come from far-off Asia but if so they brought strange cults with them that still rival the weirdest ceremonies of Mongolia. This is a Devil Dance in New Mexico.

**THOSE SHROUDED** figures are Indians at the door of their quaint adobe church in New Mexico's Taos, a town much visited by artists and archaeologists who study aboriginal life in both its present and past forms.

**ATHLETE'S FOOT DISAPPEARED** among practically all persons using Quinsana powder—according to actual records of thousands of men, women and children. In many of these cases, other treatment had failed. Now *millions* everywhere are using Mennen Quinsana with excellent results.

**YOU PROBABLY HAVE** Athlete's Foot or will get it unless you guard against the infection. Surveys show over 70% of adults infected yearly! Mild case may suddenly become serious. Fungi causing Athlete's Foot may exist almost everywhere; use Quinsana for *prevention* as well as relief.

**MOST CHIROPODISTS**, specialists in cure of the feet, recommend Quinsana for Athlete's Foot—over all other products! Today, Quinsana is used by all branches of the armed forces. To help keep your feet in *perfect* condition, be sure to use Quinsana powder *daily* . . . see a Chiropracist regularly.

**USE QUINSANA 2 WAYS:** (1) On feet and (2) in shoes (to absorb moisture, reducing chances of re-infection from shoe linings). Being a soothing powder, Quinsana is pleasant and easy to use—not like messy salves and liquids. For the whole family.

# HOW THEY MAKE THE NEW WONDER DRUG PENICILLIN

**THIS IS ONE** stage in the making of penicillin, the almost magic cure for many infections. Spores are being siphoned under strictly sterile conditions into a test tube preparatory to transfer to the flasks of bran on the right. The technicians protect their eyes with goggles from the germicidal rays.

**BOTTLES OF** liquid media are being planted with penicillin seed by means of a spray gun. The penicillin mould will grow in this liquid.

**IN THIS LARGE** centrifuge is placed green mould which produces the wonder drug. Thousands of revolutions extract the precious yellow drops.

**FOUND** by chance, penicillin is a certain type of green mould yielding a liquid that has a remarkable killing effect on many types of bacteria, but its finder, Sir Alexander Fleming on a tour of the States declared it is by no means a panacea. For instance, it does not cure infections sulfanilimides handle. Within limits it has, however, effects that are magical.

## ODD CAMERA SIDELIGHTS

**THIS** seahorse, whose snout and head have a much more equine appearance than his coiled tail, is one of the pipe fishes. It lives on small crustaceans and uses the tail to anchor itself to pieces of seaweed from which in murky water it's indistinguishable.

**IT IS PURE** coincidence that this toad happens to use a toadstool as a parasol. The fungus gets its name from the fact that like a toad it is venomous. Toads like frogs lay eggs in water but spend their lives on land and move about mostly in the night.

**DOGS AND CATS** are traditional enemies but as everyone knows it is easy to accustom them to one another if they are brought up in the same household. There are no better friends in the world than this collie and these two splendid Persian specimens. The odds, of course, are that the dog is a truer friend than the more egotistical cat.

## LITTLE GIRLS TAKE FENCING LESSONS

**THERE ARE** special classes for little girls in New York's Santelli fencing school. One of the promising pupils salutes the instructress.

**THE BIG FOILS** are heavy at first for tiny foils but the little girls soon acquire the necessary muscle. The holding up of the foils in preliminary salute is the first lesson. After that will come the traditional thrusts and ripostes of advanced training.

### CRAMPS?

Curb them each month with KURB

Smart girls don't give in during difficult days any more! They know about KURB... the Kotex product that's specially compounded to go to work on those cramps! Curb cramps with KURB. 12 tablets for 25c.

What would you do about this back view?

- ☐ Wear o' shawl
- ☐ Go informally
- ☐ Make up the difference

If your swim-suit has branded you, relax! Make up the difference—by "tanning" the paler skin with leg make-up. Maybe Sis will do it for you. Be fastidious... about your *daintiness*, too. The way, you *know* you're looking your best! And to be sure you're safe, on difficult days, choose the only napkin with a triply safety centre—choose Kotex—and get plus protection. And when you know you're safe because Kotex can't fail, you can have fun, even on "problem" days.

## Are you in the know?

Which chick will get the dance?

- ☐ The one on the left
- ☐ The one on the right

Why should he dance with a dolly in denim—when there's a swish glad to charm the eye? A fellow likes his females *feminine* (see the girl on the right). So, go easy on the tomboy get-up. Prinking pays! Wear your swooniest frock and be confident—even at "certain" times. With Kotex you risk no revealing lines, for of all leading napkins only Kotex has patented, *flat tapered ends* that don't show. Different from thick, stubby pads, Kotex banishes revealing outlines. No one will guess your secret... thanks to those flat pressed ends.

Should a house-guest make her own bed?

- ☐ Yes
- ☐ No

Whether you're staying for weeks or a week-end, the answer is *yez*, these servant-less days. A thoughtful guest helps her hostess. Make your bed... take a turn with the dishes... and you'll never lack invitations. You needn't decline them, either, when your calendar warns "stay home." Pack a supply of Kotex—and go, for Kotex will keep you more comfortable. You'll find Kotex unlike pads that just "feel" soft at *first touch*. There's no bunching, no roping. Kotex stays soft while wearing!

### TIPS FOR TEENS—

To know how to stay in the fun—to know exactly what and what *not* to do on difficult days, send *now* for the free, newly-edited booklet "As One Girl to Another". Puts you on the beam about grooming, sports, social contacts. Write today to Canadian Collection Products Co. Ltd., Dept. K5-B, 330 University Avenue, Toronto 1, Ont.

**More women choose KOTEX<sup>®</sup>**  
than all other sanitary napkins put together

IT'S QUITE CLEAR the little girls enjoy their fencing. It is real fun to lunge simultaneously and try to let a little daylight into their instructor. Beyond doubt he has taught them the right technique. It is strenuous work and after the lesson was over there was one little fencer, right, who was so tuckered out that she had to take more than forty winks.

SHE IS REALLY dressed to kill if there wasn't a button on her fail. This white jacket with a red heart on the shoulder is the standard fencing attire. She has a stout wire mask and a heavy sword hand glove.

**It's the little things that are of  
big importance in kitchen work**

The right equipment and utensils, like these of GSW, can mean so much in energy and time saved—can add so much pleasure to the preparing of meals—can contribute so much beauty to that wonder workshop of yours.

Learn the advantages of working with gleaming "Regent" Stainless Enameled Ware. Made by GSW it has the strength of steel, is easy to clean, and resists all cooking and food stains. Its lustrous, lasting colours can be matched perfectly too, by GSW Japanned Ware—to carry out the colour scheme in your kitchen.

Just now the supply of many GSW products is limited. But just as fast as material becomes available, we will turn our manufacturing facilities to the production of GSW Kitchen equipment. Then you will be able to get all the GSW enameled ware you need, as well as McClary ranges and GSW sinks, cabinets and refrigerators. They will offer better quality and value than ever, due to the experience gained in producing the tools of war.

## RACING YACHTS SAIL THE SEAS AGAIN

THE IMMENSE HARBOR of Sydney, Australia, is a great place for aquatic sports and yacht racing is one of the most popular. Here is a closely fought race for 18-footers with a stiff wind blowing.

HERE IS the unusual angle shot at its best. The photographer climbed the high mast of the famous U.S. yacht, Endeavour II, and with the above unique results pointed his camera at the deck far below.

The Star Weekly, Toronto, July 14, 1945

Sleek is the Elizabeth Arden answer to all old-fashioned ways of dispatching unwanted hair. First, it's an exquisite, sweet-scented cream you'll love to use. Second, it gives you perfectly sleek arms and legs in a few minutes. Simply smooth it on—relax for 10 to 15 minutes—remove with warm water and then rub on Elizabeth Arden Hand-O-Tonik.

SLEEK 35 HAND-O-TONIK 1.25 and 2.25

# TRICKS OF THE HOLLYWOOD TRADE

**MAKE-UP** is merely one of the scores of arts and skills that go into the making of a movie. Most Hollywood beards, of course, are artificial. This one getting a trim is real and belongs to the famous Monty Woolley

**WAITING AROUND** is nothing new for movie actors. The dancers in the foreground are having a breather while a camera crew in the background on the left are getting their apparatus ready for taking the next scene.

**THIS** small scale model of street scenes is merely for the benefit of the director to enable him to take in the stage setting at a glance. The construction of the actual setting of cities and landscapes requires a real army of skilled workers. Even a simple movie may use 400 carpenters, electricians, painters, plumbers, cameramen, to say nothing of bookkeepers. Lots cover acres and have many warehouses crammed with furniture of all periods.

## Let's do a little subtractin'

Maybe I never will learn to add up to ten like the dogs on the stage—but Bow, you and I can do some smart subtractin'.

Let's put the minus sign on your pesky fleas, with a weekly dusting of Sergeant's SKIP-FLEA Powder on my coat and undersides.

We can keep the count close to zero by using Sergeant's SKIP-FLEA Soap for my bath. It kills fleas and eggs.

The drug or pet store has them both. Bow... and a new Sergeant's Dog Book, too. Or send this coupon.

**NO TRANSFORMATION** is too difficult for those amazing Hollywood make-up artists. They could even, if asked to, turn a man into a woman. This little trick with artificial eyelashes is, of course, child's play.

**SPIDERS ARE NOT** to be relied on, so this movie worker's job is to be an artificial spider. With a unique electric spraying machine he is spinning cobwebs for use in movie medieval dungeons and wine cellars.

**FIGURE FORMS** of stars are kept in movie wardrobes to save the high-priced performers' time wasted in fittings. Note Betty Grable's form in the foreground.
